HOW WE WORK

We're experts in quality, service and photography.

Step 1 - Set-up

We arrive an hour before you want the booth to start, normally 7pm or 8pm (just after the wedding breakfast). Our booths come flat packed so stairs and small entrance ways are not a problem.

Step 2 - Let the fun begin

At the time specified we open the booth to your guests, we explain how it works and then draw the curtain, letting the fun happen naturally. Our staff can also encourage guests to get involved when a little prompting is needed.

Step 3 - Instant Prints

Within a minute of the photo being taken in our booth it's printed automatically by our high quality photo printer. Guests pick them up to take away and share with friends and family.

Step 4 - Guest Book (optional)

Our instant prints are great for adding to your guest books, really bringing it to life with words and pictures. We supply the beautiful guest book and our staff apply adhesive to the prints to stick them in the book while providing pens for your guests to leave a message.
